Part II

Environmental Repair of Solid and Hazardous Waste Disposal Facilities

This Part of the Memorandum contains a description of those parts of I 410 relating to environmental repair of solid and hazardous waste disposal cilities.

Provisions in Act 410 relating to this subject are found in ss. 20.370 (2) ((and (dr) to (dw), 25.17 (1) (en), 25.46, 70.395 (2) (k), 144.265 (2) (b), 144.4 (1), 144.44 (4) (f) and (g), 144.441, 144.442, 144.76, 144.77 and 227.01 (] (ac) and SECTIONS 2138 and 2203 (38).

In this Memorandum and in Act 410, the following defined terms are used relation to the environmental repair of solid and hazardous waste disposal: cilities:

"Approved facility" means a solid or hazardous waste disposal facility whi has DNR approval of a feasibility report and plan of operation. This term : eludes an approved mining waste disposal facility.

"Nonapproved facility" means a solid or hazardous waste disposal facil: which is licensed by the DNR but does not have feasibility report and plan operation approval.
